

NARROW SNOOT REFLECTOR

Code no. 92

For a considerable narrowing of the light circle. Its effect is similar to a honeycomb, but provides a well-defined border from light to darkness. Considerably lower light efficiency compared to honeycomb grids and accent tubes.

Ø 10.5 cm
Reflector inside surface: silver

Compatible to all units of the series Expert D, Integra Plus, Integra Mini, Speed Max, Expert/Integra Pro (Plus), eFlash, EH Pro and EH (Pro) Mini Flash Heads, EHT Scanlight and Contra.
