

SOFTBOX 120 X 180

Code no. 4181218

// Lightweight but extremely durable specialty fabric of the outer shell increases resilience and lifespan of the softbox
// Recessed front diffuser to minimize light scatter, and with Velcro areas for using accessories like honeycombs
// All seams and hems are of neat and heavy duty quality - ideally suited to frequent set up and dismantling
// The standard aluminum connector ring for soft-, strip-, and octaboxes increases flexibility
// The provided nylon transport bags have content labels to ease the matching of parts
// Changeable front and inside diffusers allow you to adjust light characteristics and are quickly exchanged in case of staining or damage
// Even light distribution and high efficiency due to optimum design
// Thanks to high-quality materials, all boxes offer excellent color rendering that remains stable for years to come
// Suitable for Hensel units of the EH system and the MH system, an optional speedring is needed: code no. 4000300 (EH) or code no. 4000800 (MH)

TECHNICAL DATA

Dimensions (WxLxD): 120 x 180 x 58 cm
Weight: 1,8 kg

Technical data are subject to change. The listed values are guide values and should not be understood as binding in a legal sense. The values can differ due to tolerances in used components.
